

Connie Haley

Connie Haley's artistic talents were first discovered and nurtured while growing up on a Michigan farm. She went on to study at Michigan State University, and then settled in East Texas where she worked successfully for several years in advertising and artist representation. But a more hands-on creative outlet called to her. She set about quietly developing her distinctive brand of digital artistry, drawing inspiration from God, nature, and the bright eyes and big hearts of her children. Connie takes great satisfaction in finding new and fresh ways to express her creativity, observing that "reinventing myself, from an artistic standpoint, is a challenge I truly relish. It keeps me sharp, motivated, and connected to what's going on around me in the world today."

To the Board of Directors and members of the Golf Course Superintendents Association of Southern California (GCSASC):

I would like to say "Thank you!" for the turf scholarship. Thanks to the generous support, I have an opportunity to pursue educational pursuits in the field of Turf Management and devote myself to the Golf Course Industry.

It's my honor to be the recipient of this turf scholarship. Thanks, again!
